

TEMPESTUS AQUILON

STRATEGY PLOY

DROP AND SECURE

Priority tactical objectives must be secured to ensure victory is absolute.

Select one marker.

- Until the Ready step of the next Strategy phase, when determining control of that marker, treat the total APL stat of friendly **TEMPESTUS AQUILON** operatives that contest it as 1 higher if at least one friendly **TEMPESTUS AQUILON** operative contests that marker. Note this isn't a change to the APL stat, so any changes are cumulative with this.
- Whenever a friendly **TEMPESTUS AQUILON** operative is within 3" of that marker, add 1 to the Atk stat of its melee weapons (to a maximum of 4).
