Drone:

- This operative cannot perform any actions other than **Charge, Dash, Fall Back, Fight, Reposition** and **Shoot**.
- Whenever determining control of an objective marker, treat this operative's APL stat as 1 lower. Note this isn't a change to its APL stat, so any changes are cumulative with this.
- This operative cannot use any weapons that aren't on its datacard.
- Whenever determining what's visible to this operative, the round disc at the top of the miniature is its head.

- This operative is ignored for your opponent's kill/elimination op (when it's incapacitated, and when determining your starting number of operatives).

Markerlight: Whenever an enemy operative is a valid target for this operative, or is visible to this operative and within 2" of your Ambush marker (see Prepare Ambush strategy ploy), it's marked. Whenever a friendly **XV26 STEALTH BATTLESUIT** operative is shooting an operative that's marked, that friendly operative's ranged weapons have the Severe weapon rule. Note that an operative can be a valid target for this operative even if this operative isn't the active operative.
