

KASRKIN👤

FIREFIGHT PLOY

GIVE NO GROUND

Hardened by a lifetime spent defending the Imperium from the horrific denizens of the Eye of Terror, the Kasrkin demonstrate unwavering discipline in the face of the enemy.

Use this firefight ploy during a friendly **KASRKIN👤** operative's activation, or at the end of the Firefight phase. Select one of your mission markers or an objective marker. Until the end of that activation or until the start of the next turning point respectively, if the total APL of friendly **KASRKIN👤** operatives that contest that marker is 2, and the total APL of enemy operatives that contest it is the same, friendly **KASRKIN👤** operatives control that marker.
