**Prepared Killzone:** You can select one additional equipment option, but it must be an Ammo Cache or an equipment terrain feature (see universal equipment).

**Scout Terrain:** Terrain features within your territory or within 3" of this operative are scouted for friendly **SPECTRE SQUAD** operatives. Once in each of their activations, friendly **SPECTRE SQUAD** operatives can do one of the following:

- Ignore the first vertical distance of 2" it moves during one climb up if the terrain feature is scouted for friendly **SPECTRE SQUAD** operatives.
- Perform the **Operate Hatch** action for 1 less AP if the access point is scouted for friendly **SPECTRE SQUAD** operatives.
