Path to Damnation: This operative starts the battle with 1 Damnation point. Once per action, you can attempt to use one Boon of Damnation when it specifies (see right). If you do, roll one D6 and compare the result to the number of Damnation points this operative has; if the result is:

- **Higher:** Resolve the rule, then this operative gains 1 Damnation point.
- **Equal:** Do not resolve the rule.
- **Less:** Inflict damage on this operative equal to its number of Damnation points and do not resolve the rule.

If this operative has 6 Damnation points, resolve the rule without rolling. Note that you cannot make an attempt more than once per action, regardless of the D6 result.

Boons of Damnation: Boons of Damnation are as follows (resolved with a D6 roll, see opposite):

- When an attack dice inflicts damage of 3 or more on this operative, you can ignore an amount of damage equal to this operative's Damnation points.
- When this operative is fighting or retaliating and you strike, you can inflict an amount of additional damage equal to this operative's Damnation points.

👊 Power fist	4	3+	5/7	Brutal, Shock
👊 Power weapon	5	3+	4/6	Lethal 5+

Chaos Champion: STRATEGIC GAMBIT. Remove your Challenge token from the enemy operative that has it (if any), then select one enemy operative to gain your Challenge token. Whenever this operative is fighting against or retaliating against an enemy operative that has your Challenge token, in the Select Weapons step, you can select one of the following weapon rules for this operative's melee weapons to have until the end of the sequence: Balanced, Brutal, Punishing, Severe, Shock.

SNATCH

1AP

► **BOOST** action. Select one enemy operative within this operative's **BOOST ZONE**. Both players roll one D6 and add their respective operative's Wounds stat to their result. If your result is higher, remove that enemy operative from the killzone and set it back up within this operative's **BOOST ZONE** or control range. It must be set up in a location it can be placed and cannot be set up further away from this operative than where it began. If that enemy operative is set up within this operative's control range, the **Fall Back** or **Reposition** action ends (allowing this operative to end that action within control range of enemy operatives).

◆ This operative cannot perform this action normally. Instead, it performs this action during the **Fall Back** or **Reposition** action after setting up from a **BOOST**.

CARVING BLOW

1AP

- ▶ Inflict 2D3 damage on each other operative visible to and within 2" of this operative in an order of your choice (roll separately for each).
- ◆ For the purposes of action restrictions and the Astartes faction rule, this action is treated as a **Fight** action. This operative cannot perform this action while it has a Conceal order, or during the same activation in which it performed the **Slice From Above** action (see faction equipment) or vice versa.

NAME	ATK	HIT	DMG	WR
🔫 Bolt pistol	4	3+	3/4	Range 8"
⚔️ Power weapon	5	3+	4/6	Lethal 5+

Pinned Prey: Whenever an enemy operative would perform the **Fall Back** action while within control range of this operative, if no other enemy operatives are within this operative's control range, you can use this rule. If you do, roll two D6, or one D6 if that enemy operative has a higher Wounds stat than this operative. If any result is a 4+, that enemy operative cannot perform that action during that activation/counteraction (no AP are spent on it).

STRIKE FROM ABOVE

1AP

- ▶ **BOOST** action. Inflict 2D3+1 damage on one enemy operative within this operative's **BOOST ZONE**.
- ◆ This operative cannot perform this action normally. Instead, it performs this action during the **Fall Back** or **Reposition** action after setting up from a **BOOST**.

Modified Vox-casters: Whenever an enemy operative is within 3" of this operative, your opponent must spend 1 additional AP for that enemy operative to perform the **Pick Up Marker** and mission actions.

Whenever determining control of a marker, treat the total APL stat of enemy operatives that contest it as 1 lower if at least one of those enemy operatives is within 3" of this operative. Note this isn't a change to the APL stat, so any changes are cumulative with this.

SHRIEK

1AP

▶ Select one enemy operative that's visible to and within 6" of this operative. Alternatively, select one enemy operative within this operative's **BOOST ZONE** (at which point this becomes a **BOOST** action). If enemy operatives are within control range of this operative, you cannot select an enemy operative that isn't. Inflict D3 damage on the selected operative and subtract 1 from its APL stat until the end of its next activation.

◆ This operative cannot perform this action while it has a Conceal order. If you're selecting an enemy operative within this operative's **BOOST ZONE**, this operative cannot perform this action normally. Instead, it performs this action during the **Fall Back** or **Reposition** action after setting up from a **BOOST**.

Slice the Veil: When setting up this operative before the battle, you can set it up in the warp instead: place it to one side instead of in the killzone. In the first Firefight phase, when this operative is activated, place one of your Warp markers wholly within your territory, then expend this operative.

In the second Firefight phase, when this operative is activated, set it up with an order of your choice in a location it can be placed either wholly within your drop zone, or wholly within your territory contesting your Warp marker. Continue its activation as normal, but during that activation it cannot perform more than two actions and cannot use more than 4" of move distance. Until the Ready step of the next Strategy phase, this operative is obscured to operatives more than 3" from it.

Whenever this operative is in the warp, it cannot be the ready friendly **MURDERWING** operative for the Malicious Narcissism firefight ploy.
