

ANGEL OF DEATH

FACTION RULE

CHAPTER TACTICS

Each Space Marine Chapter is a martial brotherhood with its own combat philosophies, suited to the unique skills and temperaments of its battle-brothers. These tenets of war may be clothed in esoteric rituals built up over thousands of years, but remain as brutally effective as when they were first laid down.

When selecting your kill team, select a primary and secondary **CHAPTER TACTIC** for friendly **ANGEL OF DEATH**  operatives to gain for the battle. Multiple instances of the same **CHAPTER TACTIC** aren't cumulative.

***Designer's Note:** If you're playing a series of games, i.e. a campaign or tournament, you must select the same primary and secondary **CHAPTER TACTIC** for every battle (you can still change the secondary with the Adaptive Tactics strategy play).*

CHAPTER TACTIC OPTIONS ARE PRESENTED ON THEIR OWN CARD
