

KASRKIN👤

FIREFIGHT PLOY

COVER RETREAT

Should a Kasrkin soldier need to retreat, their allies may lay down a withering barrage of covering fire.

Use this firefight ploy when a friendly **KASRKIN👤** operative performs the **Fall Back** action while visible to and within 6" of another friendly **KASRKIN👤** operative that's not within control range of enemy operatives. After that friendly operative has finished moving, but before that **Fall Back** action ends, that other friendly operative can immediately perform a free **Shoot** action (you can change its order to Engage to do so).
