

# WYRMBLADE

## STRATEGY PLOY

### THE DAY IS AT HAND

When the moment is right, the Cult strikes. Swift and brutal ambushes allow for high lethality, even with improvised weapons.

Whenever a friendly **WYRMBLADE**  operative is activated, if its order is changed from Conceal to Engage, until the end of that activation:

- Its ranged weapons have the Rending weapon rule.
- Add 1 to the Atk stat of its melee weapons (to a maximum of 5).
