

WYRMBLADE FACTION EQUIPMENT

EXPLOSIVE TRAPS

Wyrmblade operatives make frequent use of booby traps and mines in the execution of their ambushes.

This equipment allows you to select two mines (see universal equipment). You cannot also select that equipment as normal (i.e. to give you three), and friendly **WYRMBLADE**  operatives are ignored for your mines' effects (i.e. they cannot trigger or take damage from them). This takes precedence over the normal mines rules.
