

FARSTALKER KINBAND

STRATEGY PLOY

PREY

When a Kroot Farstalker has selected their target, the hunter's focus is directed fully towards bringing down their chosen prey.

Whenever a friendly **FARSTALKER KINBAND**  operative is shooting during an activation in which it hasn't performed the **Charge**, **Fall Back** or **Reposition** action, its ranged weapons have the **Balanced** and **Severe** weapon rules; if the weapon already has the **Balanced** weapon rule, it has the **Ceaseless** and **Severe** weapon rules instead. Note that operative isn't restricted from performing those actions after shooting.
