***Explosive:** This operative can perform the **Shoot** action with this weapon while within control range of an enemy operative. Don't select a valid target. Instead, this operative is always the primary target and cannot be in cover or obscured.

Boom!: If this operative is incapacitated during a battle in which it hasn't used its explosives, roll one D6, or two D6 if you wish. If any result is a 4+, this operative performs a free **Shoot** action with its explosives before it's removed from the killzone.
