

# SCOUT SQUAD

## FACTION EQUIPMENT

### HEAVY WEAPON BIPOD

Deploying a heavy weapon bipod allows the bearer to lay down a hail of suppressing fire.

Whenever a friendly **SCOUT SQUAD**  **HEAVY GUNNER** operative is shooting with a heavy bolter or missile launcher, if it hasn't moved during the activation, or if it's a counteraction, that weapon has the Ceaseless weapon rule; if the weapon already has that weapon rule, it has the Relentless weapon rule. Note that operative isn't restricted from moving after shooting.
