

# TEMPESTUS AQUILON

## FIREFIGHT PLOY

### ADJUST COORDINATES

As the firefight flows and develops, so those Aquilons still descending adjust their trajectories in response.

Use this firefight ploy when a friendly **TEMPESTUS AQUILON**  operative lands. You can set it up within 5" horizontally of one of your Drop markers, taking precedence over the normal distance requirement. It cannot perform the **Dash**, **Shoot** or **Fight** actions during this turning point.
