Pinned Prey: Whenever an enemy operative would perform the **Fall Back** action while within control range of this operative, if no other enemy operatives are within this operative's control range, you can use this rule. If you do, roll two D6, or one D6 if that enemy operative has a higher Wounds stat than this operative. If any result is a 4+, that enemy operative cannot perform that action during that activation/counteraction (no AP are spent on it).

STRIKE FROM ABOVE 1AP

- **BOOST** action. Inflict 2D3+1 damage on one enemy operative within this operative's **BOOST ZONE**.
- This operative cannot perform this action normally. Instead, it performs this action during the **Fall Back** or **Reposition** action after setting up from a **BOOST**.
