MURDERWING

FIREFIGHT PLOY

MALICIOUS NARCISSISM

The Murderwing wait until fear is at its zenith before striking.

Use this firefight ploy when it's your turn to activate with a friendly operative, if only one friendly **MURDERWING** operative is ready. Until the end of the turning point, whenever you have less ready friendly operatives than your opponent, you can skip your activations (in other words, you can delay that friendly **MURDERWING** operative's activation until your opponent has only one ready operative). Note that you cannot counteract until that friendly **MURDERWING** operative is expended.
