MURDERWING

STRATEGY PLOY

CULL THE WEAK

Opportunistic predators all, the warriors of a Murderwing seek to single out and pick off the most vulnerable prey.

Whenever a friendly **MURDERWING** operative is shooting or fighting, its weapons have the Punishing weapon rule if any of the following are true for the operative that friendly operative is shooting or fighting against:

- It's at least 2" lower than that friendly operative.
- Its APL stat is less than normal.
- It was wounded at the start of the activation/counteraction.
