STRIKING SCORPION ASPECT TECHNIQUE

MERCILESS STRIKES

When Striking Scorpions launch their assault, they attack with relentless ferocity, landing blow after blow to grant the enemy no moment or reprieve.

Use this **ASPECT TECHNIQUE** when a friendly **STRIKING SCORPION** operative is fighting, the first time you strike with a critical success during that sequence. Until the end of that sequence, that operative's melee weapon has the Shock weapon rule.
