Faolchú's Bond: The first time during each turning point that this operative is retaliating, if it's ready, in the Resolve Attack Dice step of that sequence, you resolve the first attack dice (i.e. defender instead of attacker).

Erudite Hunter: STRATEGIC GAMBIT. Select one enemy operative within 9" of this operative. Once during this turning point, after that enemy operative performs an action in which it moves, you can interrupt to use this rule. If you do, this operative can immediately perform either a free **Reposition** action (it cannot end that move further away from that enemy operative), or a free **Charge** action (you can change its order to do so, and it must end that move within control range of that enemy operative). In a killzone that uses the close quarters rules (e.g. Killzone: Tomb World), ignore Wall terrain when determining further away.
