

# EXACTION SQUAD

## FIREFIGHT PLOY

### BRUTAL BACKUP

When combating the most belligerent of foes, Arbitrators may combine their considerable might to bludgeon the guilty with baton and maul.

Use this firefight ploy during a friendly **EXACTION SQUAD ** operative's activation, before or after it performs an action. Select one enemy operative within its control range. One other friendly **EXACTION SQUAD ** operative can immediately perform a free **Fight** action, but you cannot select any other enemy operative to fight against during that action.
