**Combat Drugs:** At the end of the Select Operatives step, if this operative is selected for deployment, select one of the following **COMBAT DRUG** rules for friendly **HAND OF THE ARCHON** operatives to have for the battle:

- **Painbringer:** Whenever an attack dice inflicts damage of 3 or more on this operative, roll one D6: on a 6, subtract 1 from that inflicted damage.
- **Adrenalight:** In the Ready step of each Strategy phase, you can select one friendly operative that has this **COMBAT DRUG** to gain one of your Pain tokens.
- **Hypex:** You can ignore any changes to this operative's Move stat from being injured.
