

You can spend 1 of your Resourceful points during each activation of each friendly **HERNKYN YAEGR** operative to do one of the following:

- Before or after it performs an action, if it's not within control range of enemy operatives, you can use this rule. If you do, add 1 to that friendly operative's APL stat until the end of its activation.
- When it's activated, if it's not within control range of enemy operatives, it regains up to D3+1 lost wounds.
