

MANDRAKE

STRATEGY PLOY

CREEPING HORROR

Flitting in and out of the shadows, Mandrakes advance with unsettling speed.

After each enemy operative's activation, before the next operative is activated, one friendly **MANDRAKE**  operative that has a Conceal order can perform a free **Dash** action if it starts and ends that action **WITHIN SHADOW**. You cannot use this ploy during the first turning point, and you cannot select each friendly operative for this ploy more than once per turning point.
